At Lakeside.

Cricago, April 23.—Bondage won the mile and an eighth handicap at Lakeside to-day in a common sallop from J. C. Millam & Co.'s Derby cost Dan McKenna, and the victory of the Arthur cost resulted in the biggest idling of the meeting. Beaten off the last time out, the ring laid 8 to 8 against his chances to-day, making Dan McKenna the 11 to 16 favorite. There was a wild ruan to get down on Bondage as the good odds and all the big betters went to him for fair, forcing his odds to 13 to 16 at post time, and he was still being backed at this figure, with Dan McKenna almost friendless. Off at the first break Lings and Dan McKenna raced out in front, four lengths in front of Omdurman and Bondage. Down the backstretch Bondage gained much ground while Lings quit. At the haif Bondage took hold of Dan McKenna, raced him mos submission, then came home by himself, with five lengths to spare and eased up to a common canter. Dan McKenna was tired enough to the down and barrely leated long enough to beat Omdurman a length for the place.

The lacrose teams of Stevens Institute of Hoboken and Swarthmore of Swarthmore, Pa., played on the former team's grounds, Hoboken, yesterday afternoon. It was the opening game of the season on Stevens Institute grounds and there was a large number of spectators present.

At the end of the first half the Swarthmore players, by clever defensive work, shut out their opponents and scored five goals. The second half was more spirited and even than the first. The home team played a better game and managed to score five goals. The visitors scored feur goals, too, making the final score 9 to 8 in favor of the Swarthmore team.

International Lacrosse.

Manager Leonard Kebler of the Columbia lacrosse team announced yesterday that the Oxford-Cambridge team, which is to visit America this summer, will meet Columbia at South Field, on June 8, after the faculty-senior baseball games and the cleas-day exercises. The game was arranged through the manager of the Harvard team, who is arranging the schedule for the visitors. The Englishmen are expected to reach this country early in June and will play their first game with Harvard immediately after their arrival. Other contests will be played with Cornell and Pennaylvania, the other members of the Interuniversity Lacrosse League, and with the University of Toronte and the champion twelve of the Croscent A. C. The foreign squad is to consist of ten Cambridge and six Oxford men and their visit will give an added impetus to lacrosse, which is fast taking a prominent place in the curriculum of college sport.

Burralo, April 25.—Dan McLeod, who recently lost his title of heavyweight wrestling champion to Tom Jenkins last night in this city threw Jim Parr, the Englishman, two out of three falls in their catch-as-catchean match. The Scot won the first and third falls in easy fashion and would have won the match in two straight falls had he not rolled into a hold which lost for him the second fall. McLeod assumed the agressive and soon had Parr turning and spinning from dangerous holds. Finally McLeod got a half-Nelson and leg hold on Parr and downed him for the first fall in 24 minutes and 30 seconds.

It was in the second bout that McLeod put a Nelson and leg hold on Parr and as the Englishman broke away McLeod rolled into a double-Nelson. Then Parr put him down in eleven minutes. The deciding fall was fast and wickedly contested. With a Nelson and crotch hold Dan threw Parr for the winning fall in 20 minutes and 50 seconds.

LAUNCH OF THE YACHT HAOULI

TAKES FIRST DIP AT ERIE BASIN.

is the Largest Pieseure Craft Built. Here This Season, 211 Feet Over All —The Vessel Will Cruise at 20 Miles an Hour—Exquisite Fittings Throughout.

The steam yacht Haouit, which is being built by the J. N. Robbins Company for F. M. Smith, was launched yesterday afternoon from the builders' yard in the Erie Basin. Mr. Smith is in California and was not present at the launching, but a party of his friends represented him and Miss Zayda Zabriskie, a pretty ten-year-old girl, was spoasor for the new yacht. The yacht was launched at 5 o'clock, and as most of her joiner work has already been put in, it will not take long to finish the boat.

The Haculi is the largest steam yacht being built in this country this season, and it is expected that she will prove to be the fastest in the squadron of the New York Yacht Club. She is 211 feet 3 inches over all, 106 feet on the water line, 21 feet 6 inches beam, and will draw 9 feet. She is built of steel, and will have a cruising speed of twenty miles an hour; while under forced draught she will make twenty-five miles an hour. She has a double bottom amidships, and is divided into six water-tight compartments.

Below deck aft will be one large double stateroom, two large single staterooms and

stateroom, two large single staterooms and three bathrooms. All the staterooms will have handsome mabogany bureaus, with bevel plate mirrors, large wardrobes and roomy herths. The berths, bureaus and sofas will be of polished mahogany, and the rest of the herths. The berths, bureaus and sofas will be of polished mahogany, and the rest of the woodwork will be finished in white enamel paint and gilding. That part of the hull forward of the machinery, for a distance of fifty-three feet, will contain the quarters for officers, crew, store rooms, crew's galley and a large refrigerating room and loe box. Two large bathrooms are provided, one for officers and the other for crew, and much thought has been given to make these quarters as pleasing and comfortable as possible.

While the utmost care will be exercised to secure the best and highest grade of materials for the hull and machinery, equal attention will be given to the joinerwork and decorations, which will be of a superior order. All the windows in the deckhouses will have shiding lace panels with the owner's private signal and the New York Yacht Club burgee embroidered in white silk.

The draperies of silk velour, with Persian trimmings, chairs and sofas will be of speciall design, upholstered and covered with lavonia velour, and the carpets will harmonize with these fittings, and furnishings will be specially woven to fit.

The staterooms below are to be finished in soft tints so blended that a harmonious effect will be produced. The air port curtains will be of silk velour, appliqued with lace effect trimmings, and the portieres and table covers will be of the same material, embroidered with the owner's private signal. The carpets for these rooms will also be woven to order, and be of a color to match the fittings.

The spring football practice which has been going on at Columbia for the last ten days which will be impressed into service in the fail. All told, the spring squad for the first time consisted of over fifty men. Of these about twenty are too light for any but end time consisted of over fifty men. Of these about twenty are too light for any but end or quarter back positions, but at least a dozen other players seem to have star possibilities. Probably the best of the new men is Nichol, a big Westerner, whom Goorge Foster Sanford declared to be the best guard had ever seen. Nichol has just received the consent of his parents to play the game. Other good men are: J. Thorpe, the star end at Deface Mann, who will enter Columbia in June: Ralph B. Local cricketers had their first practice of the season, yesterday, when there was a good gathering of willow wielders at Prospect Park. Last year at this time, with the thermometer around 93, the ground was harder and in better condition for play: but harder and in better condition for play; but at present it is soft and seggy, and were any matches played, the bowlers would have had a decided advantage over the batsmen.

Some of the men who were seen at the wickets, yesterday, shaped well, however and there was an amount of enthusiasm displayed which augurs well for the future play of the season. The Brooklyn Chub, especially, was out in force, and after practising a meeting of the executive committee was held, at which the interesting feature was the election of a large bath of new members. As was the case last year, the club will be able to place three teams in the field every Saturday afternoon during the season and will also have a mid-week team, which will have a schedule arranged for it on others days than Saturdays.

Intercellegiate Auto Race.

Columbia's automobile club has been invited to take part in an intercollegiate automobile race to be held at Brighton Beach in June. Similar invitations have been sent to Harvard. Fale and the Cutler School and to the organizers of the proposed olub at Princeton. The details of the contest will be decided at the coming meeting of the Automobile Club of America. Manager Roscoe C. Gaige of the Columbia club is anxious to have the race come about and believes that if the Automobile Club of America becomes interested in the matter the contest will be assured. Columbia's organization now includes twenty-one machines, four of which were built especially for racing. Two of these, owned by Lewis Iselin and L. S. Bamberger, were constructed along lines suggested by the students themselves, who attended the course on "Automobile Engineering and Design" in the School of Applied Science, given by Prof. Frederick Remsen Hutton, who is himself an ardent automobilist. Three other students are designing new machines, and the proposed race will furnish the first real opportunity to test the relative merits of the machines.
